expertise and advanced
technologies to efficiently
manage any class action
claim administration
regardless of class size
or complexity.*

A Full Service Partner

Hamlin & Burton provides complete turn-key claim administration services for class action settlements that ensure quality, accuracy and efficiency. We deliver exemplary claim management services to minimize organizational disruption for our clients during the administration of complex settlement protocols.

Hamlin & Burton expertly delivers the following services resulting in effective and efficient management of the mass tort settlement processes:

- Industry leading litigation management experience
- Tailored approach to meet the needs of each project and each client
- State of the art, web-based information management
- Unlimited, instantaneous access to file material and customized loss runs
- Proven ability to meet all demands of complex, high exposure class action settlements
- Complete escrow account management including issuance of expense and settlement payments, case management, full accounting services and electronic access to funds

CLASS ACTION CLAIM MANAGEMENT SERVICES

Keeping Clients and Class Members Informed

Hamlin & Burton employs leading edge technology to keep clients informed and class members aware of their options. We are able to quickly establish a clear and informative website dedicated to individual clients, delivering easy to understand instructions for class member access. This enables an inexpensive, yet highly effective, avenue of communication with class members. It also provides class member access to claim forms, releases, important deadline dates, contact information and more.

Delivering On-Target Technology

Ongoing client communication is critical during the entire mass tort resolution process. Hamlin & Burton employs simple yet powerful technology to afford our clients the option of instantaneous updates. CHaRT®, (Claim Handling and Reporting Technology) is our copyrighted, web-based claims tracking system. CHaRT® allows our class action clients to track daily claim activity in real time. CHaRT® also extends the following benefits:

- Web-based and accessible at any time from any computer with Internet access
- Delivers a powerful technology solution that serves as a central repository to capturing and updating important claim-related information
- Allows clients to customize loss run information at any time
- Contains detailed activity log/file notes for each class member claim
- All paper documents are scanned and accessible through our database

Client Tailored Solutions

No two class action settlement processes are exactly alike. The solutions we extend to our clients are tailored for specific client needs and specific litigation requirements.

Our expertise produces substantial savings for all parties providing a fully electronic, web-based environment that reduces meetings, duplication, travel, and mailing costs.
